

**JSW Energy Centre of Excellence (JSWECE)**, Toranagallu, Bellary Dist, recognized by Central Electricity Authority, Govt. of India and **M.S. Ramaiah Institute of Technology (MSRIT)**, Bangalore, an Autonomous Institute affiliated to **Visvesvaraya Technological University (VTU)**, Belgaum, Karnataka, announces admission to one-year full-time **Post Graduate Diploma in Power Plant Engineering** for the 5<sup>th</sup> Batch of the year 2011-2012. The course covers mandatory requirements under Indian Electricity (Amendment) Rules, 1981 which authorizes certificate holders to operate power plants of various capacities.

*Admissions Open for*

## Post Graduate Diploma in Power Plant Engineering

**Why you should join?** The objective of the course is to develop highly skilled and competent manpower for the power sector in the country to meet the demand for trained power professionals by central, state, public & private power utilities and related industries. The course aims at creating an intellectual capital for the power sector as well as creating tremendous employment opportunities for graduate engineers. This is a one-year full-time course jointly conducted by MSRIT, a premier technical Institute of repute and JSW Energy Ltd., the energy vertical of JSW Group, one of the fastest growing business conglomerate in India at its state of the art training Institute, JSWECE at Toranagallu, Bellary Dist. in Karnataka, situated in close proximity of power plants of 1360 MW capacity of JSW Group. In addition, JSW Energy Ltd. is setting up large utility thermal power plants of about 4500 MW capacity across the country and a hydro power project of 240 MW in Himachal Pradesh.

Extensive theoretical inputs from experts, in-plant training, on-job training at the power plants of JSW Energy, hands-on training on high-fidelity, real time 300 MW thermal power plant simulator, exposure to O&M of coal based and corex/blast furnace gas based power plants and specialized courses from premier Institutes & professional bodies on areas such as project management, six sigma & advanced power plant topics are the highlights of the course.

**Eligibility:** First Class B.E./B.Tech or equivalent in Mechanical/Electrical & Electronics/ Electronics & Communication/Instrumentation Engineering from a recognised Institution / University. Those appearing in their final year examination can also apply; however they must submit their provisional degree certificate at the time of counselling.

**Age limit:** 30 years for non-sponsored candidates and No age limit for sponsored candidates.

**Selection Criteria:** Based on Merit in Entrance Test.

**No. of Seats:** The no. of seats is limited to 70 (subject to vary). Few seats are reserved for candidates from Power Utilities having more than one year experience. JSWECE & MSRIT reserves the rights to increase or decrease the intake seats.
